## Premium Construction Project Management

Welcome to Platinum from IQ Consultants, the very finest construction project management service, designed with exclusivity in mind; a service tailored to exacting requirements, by a team of property professionals at the top of their games and disciplines. When you want a project manager co ordinating your build on an exclusive basis, ensuring that each and every detail is taken care of on your behalf, so that your project is delivered with the minimum of fuss and disruption, choose IQ's Platinum service.

### Creating amazing properties

Exceptional stand out projects from start to finish whatever your brief: Daring design; contemporary or traditional architecture; environmental properties; smart homes; stunning interiors and fittings; beautiful gardens and landscaping. IQ Platinum premium construction project management service turns a vision into reality.

### Our exclusive construction project management team

An experienced and highly knowledgeable construction project manager will assemble and lead a team of professional services and trades hand picked to work on your project. We work completely independently and always with your interests at heart. As skilled contract administrators all aspects of tendering, budgeting and the smooth running of your contract are taken care of.

### Project privacy and security

Your privacy is paramount as is the need to maintain total security around you project. Our dedicated 24/7 support is guaranteed as our commitment to your project.

Such is the strength and ability of our team that once you appoint us you can get on with your daily lives as normal leaving us to manage on your behalf.

### Handling every last detail

There is nothing that we cannot design, manufacture, source or manage for you. Our ongoing relationships with high end UK and International manufacturers of the latest in home interior products ensures we can install and fit exactly what you require.
